

# HOW TO SAVE MONEY (as a kid)

with 9 easy steps

Create a savings chart and save for something really cool!

Set goals to save from every allowance or paycheck, that 5 dollars here and there will add up!

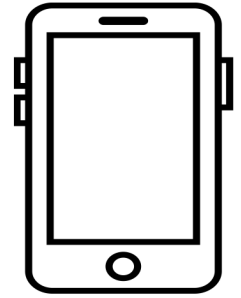

Pay yourself: make sure you set aside a part of each allowance to treat yourself!

Record your expenses: Every allowance or paycheck write your income then deduct your expenses and you are able to see what you are leftover with.

Make a budget if you know that you need/want something or have debts to pay off

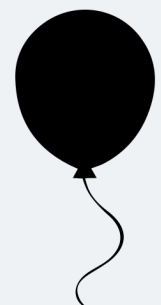

Establish a time-frame and save for something really expensive all by yourself!

Shop smarter! Compare prices and save where you can, especially at certain grocery stores

Avoid Fast Food money spent can add up quickly! it's unhealthy anyways.

Never stop saving!

## Example of a savings chart
